RETURN OF PROFESSOR WHEELER 1 O the "Foreign Residents of Hongkong."—In returning his sincere thanks for past favours, Professor Wheele: begs to call the attention of the community at large of his having returned to this port, and to the fact that he intends corrying on Maker and Perfumer, &c., &c.

Ladies and Gentlemen requiring their hair attended to will find it "artistically and ccientifically" arranged and cut "A

P. W-r hopes by strict attention to business (and skill displayed by him previcusly when in Hongkong) to merit a large share of patronage and support from his old friends and residents here. Terms strictly moderate.

EUREKA! EUREKA!! EUREKA!!! Professor Wheeler, during his late travels ("in the new world") and scientific researches, has discovered and invented celebrated preparation for preventing hair turning grey, and restoring grey hair to its natural color ; it also is a wonderful specific for removing dan-druff, that great enemy to the human hair. Une trial alone will be sufficient to satisfy the most sceptical of its worth, and meet with a large and universal sale in every port in "China and India." P. W-'s "Wheellerean Hair Restorative" made to order for exportation; also the trade treated with on the most liberal

quick despatch. N.B.—Please note the address; my Sa- H. B. GIBB, Eaq. loon will be open to the public on SATUR- WALDEMAR NISSEN, R. BRAND, Esq. DAY next, June 13th.—Wellington Street, Esq. Hongkong, June 13, 1868.

HOLLOWAY'S PILLS & OINTMENT

HOLLOWAY'S PILLS. HIS Medicine is universally admitted . to be the most efficacious remedy known to the world. No preparation is so suitable to the climates of India and China as this fine and invigorating medicine. I is particularly adapted to the constitution of European ladies, as it is never failing in its effects in all diseases peculiar to females, while those who are attenuated by the debilitating effects of the above climates will find in this wonderful remedy a kind of talisman whereby they may insure a restora-

tion to robust health. HOLLOWAY'S OINTMENT The science of Medicane has never before produced any remedy that can be compared after all other means have failed, al wounds, sores, ulcers, and also the most inveterate skin diseases peculiar to the climates of India and China. It is the true friend of the Soldier and Civilian, as certain old sores can be removed by it that cannot be conquered by any other treat-

THE CHINA MAIL.

HONGKONG, SATURDAY, JUNE 20, 1868. SHERIFF'S DUTIES. Two recent cases in which a nolle prosequi was entered by the Attorney General, in consequence of informalities in the service of notice of trial to prisoners, The H.B.M. gun-boat Drake, reports | have attracted attention to the unsatisfactory provision made for the performance of Sheriff's duties when that officer is absent. In the one case it is quite probable that justice had been satisfied by the preliminary imprisonment undergone by the culprits. In the other it is fairly presumable that a couple of childin the Guide. stealers escaped the just puhishment of a crime but too common in this Colony.

The wildest stretch of imagination cannot imagine the Chinese mind realizing the THE thirty first aunitor jesty's accession to the fact that an illegal, or informal, mode of serving a notice is sufficient to vitiate legal proceedings, and although we are bound to respect the principle laid down by the Chief Justice and Attorney General-a principle which is in effect a great safeguard of the subject-we can easily believe that they share with the public and oarselves the regret felt that they

It may well be that, as the Chief Justice remarked, it was no one's fuult i this particular case that the services of notice could not be formally proved, but we may assume his Lordship to have been referring only to those temporarily responsible. Beyond that there has been a grave oversight on the part of the executive, whose duty it was to see that the Sheriff's office was filled by some one whose duties permitted of his strictly carrying out the necessary steps. Why the Acting Captain Superintendent of Police, whose duties are amply sufficient to employ the time of even a less zealous officer, should have been selected as the Sheriff's locum tenens it is difficult to say. Surely there are, amongst other gentlemen acquainted with Chinese, (if that be an absolute necessity) one or two whose services could have been temporarily employed. But beyond that there are many others holding appointments, whose duties are less engrossing than

crew of the Lesmona after the pillage and souttling of that vessel by the pirates. We cannot, of course, condemn the absent unheard, but as the accounts from two sources-Chinese and foreigntend the same way, it is justifiable to notice the apparent absence of any effort to save the lives of the unfortunate Chinese who were left on board the sinking ship. After patching up the only connect useable boat; the crew appear to have entirely abandoned the Chinese passengers, not even the construction of a raft being attempted whereon to give them a chance for life. In the investigation which will doubtless ensue regarding the loss of the vessel, it is to be hoped that this amongst other points will be fully ventilated. AMERICAN SHIP CHARTERS. WE learn that a commercial dispute much importance to masters of vessels seeking charters from Canton to the days been settled at the above place. The master of a British vessel was sued by his charteners for damages arising out of his refusal to sign bills of lading for cargo taken on board, the said refusal being based on an alleged serious flaw appears, in a clause which is not uncommonly inserted, to the effect that " measurements shall be taken as per Wi liams Commercial Guide"; and in this work the measurement of Cassia in. bundle, ten bundles thus constituting a ton. In reality, however, it appears that bundles of cassia measure upwards of five it was evident that Brown had been drinkenbig feet, and that consequently, eight bundles make somewhat more than ton of forly cubic feet. It is obvious that under such circumstances a charterparty including stipulations such as the above would impose on a ship the obligation of carrying one fifth of her cargo for nothing; and the master of the vesof his contract, appears to have resisted its fulfilment on the ground that it had been concluded in error. The case, we learn, did not come on for trial in Her Majesty's Court, having been arranged by mutual consent through the interven-

Even the press. he thought, might be sometimes mistaken he had in one or two rare instances known its information not to be perfectly accurate. Indeed, he had been more surprised by printed news that he had real of himself than by any printed news that he had ever read in his present state of existence. Thus the vigour and perseverance with which he had been for some months collecting materials for and hammering away at a new book on America had quite astonished him seeing that at all that time it had been perfeetly well known to his publishers on both sides the Atlantic that he had positively declared that no consideration on earth should induce him to write one. Dysentery, Cholera, Fever, Ague, Coup de Soleil, Colds, &c. . COLLIS BROWNE'S

(Ex. Army Med. Staff) CHLORODYNE

CAUTIONS .- Vice-Chancellor Sir W. P. Wood stated that Dr COLLIS BROWNE was undoubtedly the Inventor of CHLURODYNE: that the story of the Defendant, Freeman, being the Inventor was deliberately untrue, which he regretted had been swort to. Eminent - ospital Physicians of London stated that Dr. J. Colha Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's See Times. July 12, 1864. The Public, therefore, are cautioned against using

apy other than DR. COLLIS BROWNE'S Chlorodyne.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the leranged functions and stimulates healthy action o the secretions of the body, without creating any of those unpleasant results attending the use of opinin. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively, using in great quantities in the following diseases:-Diseases in which it is found eminently useful-Cholera, Dysontery, Diarrhea, Colics, Coughs Asthma, Kheumatism, Neuralgia, Whooping Cough Cramp, Hysteria, &c.

EXTRACTS PROM MEDICAL OPINIONS. The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne -See Lancet, Dec. 31, 1864.

From A. Montgomery, Esq , late inspector Hospitala, Bombay. "Chlorodyne is a most valu able remedy in Neuralgia, Asthma, and Dysentery To it I fairly owe my restoration to health, after 1 months' severe suffering, and when other remedies Dr. Lowe, Medical Missionary in India, reports

Dec., 1865) that in nearly every case of Cholera in which Dr. J. Collie Browne's Chlorodyne was administered, the patient recovered. Mrs. Forbes, wife of the Chaplain at Paris. cannot speak too highly of Dr. J. Collis Browne's Chiorodyne; I have not in any single instance been disappointed with the result, even in aggravated cases of Indian Cholera."

Extract from Medical Times, Jap. 12, 1866 .-Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and Extract from the General Board of Health, London, as to its efficacy in a holera,- "So strongly are

we convinced of the immense value of this remedy, for shipment to the different Presidencies through- that we cannot too forcibly urge the necessity of adopting it in all cases." Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal

Opinions of the Press.

(Foochow Advertiser, May 4, 1867. We have received a copy of 'Notes and Queries:" this publication will be really useful, it contains much matter relating to China which otherwise would be lost, and we wish it every success. Sinologues, Chinese antiquaries and scientific men oughi especially to congratulate themselves on the appearance of "Notes and Queries, as it will form their medium of communication and bring into notice what otherwise might have lain unknown and buried in themselves. their Gazette, Science and Philology their Recorder, the various divisions of mental thought and work in this land ought to be well taken care of; for our part we are glad to see these several issues, both on account of the information and instruction they afford, and the index they supply to the mental vigour of the foreign community in this land

(Foochum Missionary Recorder, April, 1867.) to the compilers, sutirely excluded. The two first numbers of Notes & Que-

Miscellaneous.

(Singapore Free Press, Mar. 2, 1867.) We have received the first number of a neat little pamphlet of eight pages entitled " Notes and Queries on China and Japan," containing some able and interesting historical parers on China, together with notes and numerous queries for future contributors to answer, and states that the number of its pages will depend upon the number and length of its contributions. The work will be received with eagerness by literary men, as throwing light upon the ancient traditions of China, with researches into the laws of the various provinces, and the custom of the people.

San Francisco News Letter, Mar. 23, 1867 We have received the first number, which is full of curious, out-of-the-way, and inte-

(Shanghai Kecorder, May 17, 1867.) We are put in possession of the fourth number of "Notes and Queries on China and Japan." In saying that the present number equals in interest and importance its predecessors, we have already said a great deal in its layour. Our knowledge of these countries has hitherto been so scattered, so ill-arranged, entombed as it were, in a series of works, in different languages, and spreading in point of time, over the last two centuries, that some means of separating what is really new, from what has possibly been over and over again described is much to be desired \* \* \* As a medium of intercommunication on these and many other subjects of interest to those connected with the far East, we must hail the appearance of . Notes and Queries," \* \* \* We need only add that the periodical is of convenient size, is carsfully edited by Mr N. B. Dennys, and is published at the low price of \$4 per annum; and having said this, we trust that " Notes and Queries on China and Japan " will meet with that success which so creditable a production deserves at the bands of those inerested in Asiatic researches.

Report of North China Branch of the Royal Asiatic Society. March 1867.

Two periodicals which are likely to be of great service have also been commenced one is published at Foochow and is called "The Missionary Recorder," and the other emanates from Hongkong and is called "Notes & Queries." It is intended to serve as a medium of intercommunication for persons interested in Chinese Philology, Geography or History. These indications of literary activity are perhaps the most import. ant "sign of the times" thas been our province to record, for they are all means to facilitate that mutual understanding one of the other; which seems so bard to establish between Europe and China.

(Hankow Times, Mar. 1867.) We insert this week, apropos of some piquant correspondence which has appeared of the late in our columns, an extract from the new publication, "Notes and Queries on China and Japan," on the subject of infanticide, which we particularly recommend to the notice of our contributors as containing some reliable facts in connection with the vexed question. \* \* \* Such a work as the "Notes" is peculiarly adapted for bringing to light valuable information in respect to this country, and its people, language, and institutions; and we trust it will be as warmly supported as it deserves by the numerous rising and energetic men, who are now, thanks principally to the philological labours of Mr Secretary Wade, making rapid advance in the acquirement of the languages to say nothing of the devoted missionaries who have already grown grey in their service to the cause to which they have given themselves.

From the Hunkow Times, May 18. We feel it to be a public duty to take the hat opportunity of cailing attention to the "Guide Book and Vade Mecum" just issud for "travellers, merchants, and residents in general," in the Treaty Ports of China and Japan, by Messrs Shortrede & Co., of Hongkong, \* \* \* The order of aescription of the various places follows their position on, or from the coast, as we go northward. In each instance the history, position, means of access, accommoda-.ou, foreign residences, public buildings, community, mode and cost of living, cli mate, associations, amusements, places of interest, native institutions, population, local government, natural history, productions, and statistics of trade are given, along with a miscellaneous detail of facts and incident n connection with particular localities. So car as we are able to practically test the individual descriptions of the various places, Now that Law and Officialism have got of fairness and fulness. Peking, Yedo, and Notes and Queries, and Missionaries their survey. \* The value of the book is greatly increased by a most copious index, and the work closes with a set of useful ar pendices. . The last of these is the greatest novelty of the work. - It cor sists of a bibliographical index of all formal works pubushed from the earliest date in the English language on China and Japan. Philological cal bor a are, for some reasons best known

We hope to see this omission repaired in ries on China and Japan have been placed the next edition. With the exception of on our table. The magazine is every way the comparative thinness of the paper, the creditable to its editor and publishers, and getting-up of the work is very creditable to we cannot but wish them the utmost and all concerned; and we have sincere pleasure cess in their efforts to fill an important and in congratulating the authors and publishers hitherto noccupied place in Eastern liter. on the considerable merit of their admirable enterprise and performance.
